

## China: International Trade, Third Quarter, 1982

A Reference Aid

This publication is prepared for the use of US Government officials, and the format, coverage, and content are designed to meet their specific requirements. US Government officials may obtain additional copies of this document directly or through liaison channels from the Central Intelligence Agency.

Requesters outside the US Government may obtain subscriptions to CIA publications similar to this one by addressing inquiries to:

Document Expediting (DOCEX) Project Exchange and Gift Division Library of Congress Washington, D.C. 20540

or: National Technical Information Service 5285 Port Royal Road Springfield, VA 22161

Requesters outside the US Government not interested in subscription service may purchase specific publications either in paper copy or microform from:

Photoduplication Service Library of Congress Washington, D.C. 20540

or: National Technical Information Service 5285 Port Royal Road Springfield, VA 22161 (To expedite service call the NTIS Order Desk (703) 487-4650

Comments and queries on this paper may be directed to the DOCEX Project at the above address or by phone (202-287-9527), or the NTIS Office of Customer Services at the above address or by phone (703-487-4660). Publications are not available to the public from the Central Intelligence Agency.

# China: International Trade, Third Quarter, 1982

A Reference Aid

Information available as of 1 March 1983 has been used in the preparation of this report.

EA CIT 83-001 March 1983

### China: International Trade, Third Quarter, 1982

#### **Foreword**

The trade statistics in this publication are derived from computerized series of partner country data, which are continuously updated. The methodologies for these programs are described in appendix A of CIA, ER CIT 79-1001, China: International Trade Quarterly Review, First Quarter, 1979 and in the preface to CIA, EA 82-10015, China: International Trade, Annual Statistical Supplement, February 1982. The most recent quarterly estimates are made with about 75 percent of the trade having been reported. Based on analysis of the variance in past trade shares, we expect that when all countries have reported, the total trade figures will differ from our estimates for the current quarter by less than 2 percent for exports and less than 4 percent for imports. Estimates for earlier quarters, for which we have much more complete trade partner data, are expected to change only marginally.

Unless otherwise noted, Chinese exports, imports, and trade balances are valued free-on-board (f.o.b.) at the port of origin. For balance-of-payments purposes, this procedure is preferable to valuing imports on a cost-insurance-freight (c.i.f.) basis. Because a large share of the trade is carried on Chinese ships, a c.i.f. value would overstate the foreign exchange costs of imports.

a/ Country listings for any given area are not exhaustive; only major trade partners are presented. Country data for all quarters to the right of an asterisk are extrapolated and are subject to change. See appendix A, China: International Trade Quarterly Review, First Quarter 1979 for further details. Ellipsis marks (...) indicate that trade, if any, amounted to less then US \$50,000.

Kampuchea, Cuba, Mongolia, Laos, North Korea, and Vietnam. Includes quarterly data that have been interpolated from annual trade-partner data.

a/ Data are from the Japanese Ministry of Foreign Trade; totals may differ from those of the IMF, presented in Tables 2 through 4, due to exchange rate conversions and commodity coverage. Japanese imports c.i.f. are reduced by 5 percent to reflect Chinese exports f.o.b. Categories are based on the Brussels Tariff Nomenclature (BTN) and in general do not correspond exactly to the SITC categories used in Tables 5 and 6. Blank spaces indicate that no trade was reported; ellipsis marks (...) indicate that trade, if any, amounted to less then US \$50,000.
